Sales and profit by product

Insights:

- **Concentration:** California and New York dominate with ~35% of total sales.
- **Seasonality:** Recurring demand spikes in September and November (Q4).
- **Profitability:** The Canon 2200 copier is the primary driver of net profit (+$25k).

Sales & Profit Dashboard

Strategic Insights Overview

Market Concentration

80% of revenue comes from 15 states

Focus marketing and logistics on high-performing regions to maximize ROI. Arizona is the key threshold.

Seasonal Demand

Revenue peaks in September and November

Increase inventory starting in August to meet Q4 demand and avoid stockouts.

Profitability Risk

High dependence on a single product

Diversify high-margin products to reduce financial risk and dependency.

Data-driven insights for strategic decision-making
